 unofficial  
 TEDDY  
 Mascot!

## No Hibernation for TEDDY this Winter

Between holidays, clinic visits and snow days, we have all had quite a winter! We hope you are all doing well and enjoying 2012. As always, things are happening at TEDDY and we want to keep you in the loop.

Did you know we are now reimbursing \$10 for each diet record? We know they can be a chore, but the information you collect is so important to the study and we are thankful for all of the hard work you do to get those forms filled out.

TEDDY hit a significant milestone this quarter. Study-wide, 102 TEDDY kids have been diagnosed with Type-1 Diabetes. We wish kids didn't have to deal with diabetes, but that is why we (TEDDY and YOU) are doing this important research. We are just starting to analyze the early data! This is an important step towards figuring out why kids get Type-1 Diabetes and how to prevent it. We couldn't do it without you! Stay tuned for what we hope will be exciting research updates.

Science is the name of the game here at TEDDY and we love to share our enthusiasm. Do you have a child age 4+ who likes science or is a little wary of TEDDY visits and wants to know why they have to do it? We have great people in the TEDDY lab that can give your child a lab tour, lab coats included. If you want to know more, ask your scheduler and she can set it up.

As the days grow longer and the weather gets warmer, we look forward to seeing you for your next TEDDY visit!

### TEDDY Study Tidbits

#### Park Day Plans

If you have a good idea for a park where we can host a TEDDY Park Day, please let us know!

#### Facebook

Share tips, tricks, recipes and more -
